frog	cat	horse	monkey	bird	bear																				
																									
fish	sheep	dog	duck																						
Connaissances grammaticales	WHAT ?																								
Consigne	<p>Tu vas recevoir un quadrillage et une fiche avec 5 animaux. Colorie la palette de couleurs du quadrillage en suivant les consignes qu'on te donne. Colorie ensuite les 5 animaux sur la fiche en utilisant des couleurs de la palette. Accroche la fiche dans le dos d'un camarade, sans la lui montrer. Tu vas devoir circuler dans la classe et poser des questions à tes camarades pour deviner quels sont les animaux que tu as dans le dos, et quelle est leur couleur. En fonction des réponses, tu complètes le quadrillage. Tu ne peux poser qu'une question à chaque camarade et si tu as déjà la réponse qu'il te donne, tu dois demander à quelqu'un d'autre. Quand tu as fini, compare la fiche qui est dans ton dos et le quadrillage que tu as complété. Ex: What do you see ? I see a pink cat</p>																								
<i>In English</i>	<p>You will have two charts. Colour one chart as instructed by your teacher. For the second chart, colour in the animals using colours used on the first chart. Stick the animal chart on the back of a classmate. Then, move round the class and ask your classmates : "What do you see?" They will reply: "I see...". Then tick the correct box. You are allowed to ask only one question to each student. If you already have that answer, find someone else. Check your answers when you have finished.</p>
